

# Alphabet light commercial vehicles

## A fleeting glance

# 3.5 tonnes of benefits

## Alphabet services for light commercial vehicles

Compact dimensions, large storage capacity and dynamic acceleration – in terms of versatility and flexibility, light commercial vehicles are in a league of their own. Since vans weighing up to 3.5 tonnes only require a category B driving licence, this type of vehicle is frequently requested in logistics.

### **Customised commercial vehicle solutions**

Whatever your commercial vehicle requirements, Alphabet makes sure you get the most out of your vehicle. As one of the leading full-service leasing specialists, we offer innovative solutions for all vehicle makes and models, including environmentally friendly and cost-effective electric vehicles. The combination of Alphabet's individual advising, best in class leasing conditions and professional all-round service creates a package that offers added value and a range of benefits.

### **Advantages**

- ✓ Special guidelines for light commercial vehicle returns and assessment
- ✓ 24-hour claims hotline
- ✓ Maintenance and repairs (also with a closed account) Tyre service (also with a closed-end lease)
- ✓ Fees and taxes
- ✓ Insurance including claims management
- ✓ Fuel management
- ✓ Labelling and in-vehicle installations
- ✓ Online reporting
- ✓ Inspection and processing of service invoices

# Alphabet finance leasing

## Keeping you financially mobile

Whether for business or for private use, commercial vehicles are truly spacious, offering the comfort of a passenger vehicle while being fast, safe and cost-effective. With a finance lease from Alphabet, you can benefit from an attractive, fixed monthly fee.

Choose the mileage and duration at the beginning of the contract and drive off in a modern, reliable commercial vehicle that keeps you financially mobile by keeping you free from capital commitments. And thanks to fixed fees, you can also keep track of your finances.

### Advantages

- ✓ Attractive monthly usage fees
- ✓ Planning security thanks to fixed monthly fees
- ✓ Reduced capital commitments
- ✓ No return damage settlements at the end of the contractual period if you take advantage of the option to purchase
- ✓ No mileage limit if you take advantage of the option to purchase

# Fully equipped to meet virtually any requirement

## Customised installations and labelling

Shelving, boxing and case systems help to create order in the vehicle, optimising loading space and increasing functionality. Alphabet partners with renowned manufacturers to provide fully equipped vehicle solutions that meet virtually any requirement – from standard installations to special industry installations and all types of labelling. Alphabet offers a first-class service here, too. This begins with expert advice from the manufacturer, comprises handling installation logistics and extends to delivery of the fully equipped vehicle.

### Advantages

- ✓ Attractive leasing terms via Alphabet through its partners
- ✓ Installations can be calculated into the leasing rate
- ✓ Expert advice from the manufacturer
- ✓ Handling of the installation logistics and complete, direct delivery by the manufacturer and the garage
- ✓ High level of customisation

At Alphabet, you can count on top terms and a first-class service for commercial vehicles.
